TABLE: ar9056t

Nonmonetary Determination Quality Scores as computed by the system. Data is not entered but can be retrieved.

All data refer to the corresponding rptdate of ar9056

Item	Cell Name
State Fips	st
Report Date	rptdate
User Identification	user_id
Date skeleton records were locked	lock_date
Score	score
Sample Size	samp_size
Data loaded manual (M) or automated (A)	load_type
Score for separation issues	seps_score
Score for nonseparation issues	nonseps_score
Weighted score	weight_score
Population of separation issues	pop_seps
Population of nonseparation issues	pop-nonseps
Number separation issues in sample	num_seps
Number nonseparation issues in sample	num_nonseps
Number sep. issues, material not found	num_seps_nomat
Number nonsep issues, material not found	num_nonseps_nomat
Number sep. issues, no issue	num_seps_noiss
Number nonsep. issues, no issue	num_nonseps_noiss
Number sep. redeterminations	num_seps_redet
Number nonsep. Redeterminations	num_nonseps_redet
Cases with no issue or "out of scope" issues exceeded allowed limit (Y,N)*	overall_flag
"Case material not found" > 10% (Y,N)	missing_flag

* If overall_flag - Y there is no confidence in the resulting score.
